Dynamic Learning is a subscription service that offers you and your school a purchasing solution to suit your needs. You can also try before you buy with a free 30 day trial. Visit www.dynamic-learning.co.uk to find out more.

Edexcel Biology for AS and A2

Authors: C J Clegg

Student's Books

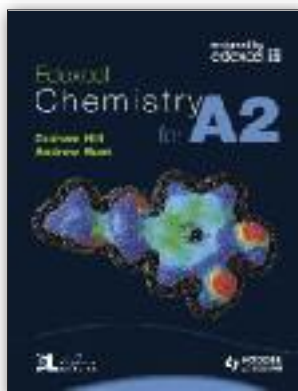

- Endorsed by Edexcel so you can be sure that they meet the requirements of Edexcel's GCE Biology specification
- How Science Works examples are identified throughout, ensuring that students really understand the wider issues in science
- Self assessment questions encourage students to check their understanding

Dynamic Learning Student (for individual students working at home)

Dynamic Learning student resources provide free access to additional activities, ensuring that students have ample material to aim for higher grades. Useful weblinks are included to help students carry out further research. An interactive version of the Student's Book also helps your students work independently and at their own pace.

Dynamic Learning (for whole class use)

Dynamic Learning is delivered via the web so you can access it whenever and wherever you want. **Edexcel Biology Dynamic Learning for AS and A2** is packed with high quality resources such as photos and illustrations, animated activities, quizzes and progress tests.

Edexcel Chemistry for AS and A2

BESTSELLER

Authors: Graham Hill and Andrew Hunt

Student's Books

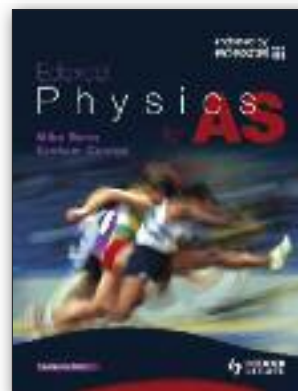

- Endorsed by Edexcel so you can be sure that they fully meet the requirements of Edexcel's GCE Chemistry specification
- Written by expert authors, whose reputation is unsurpassed
- Provide quick 'test yourself' questions and end of chapter review questions to ensure the content has been fully understood
- Data analysis and comprehension activities are included throughout to help address the new How Science Works themes

Dynamic Learning Student (for individual students working at home)

Provides free access to extension questions and practical guidance online, as well as Personal Tutor presentations, which help your students work through difficult concepts step-by-step.

Dynamic Learning (for whole class use)

Dynamic Learning is delivered via the web so you can access it wherever and whenever you want. **Edexcel Chemistry for AS and A2** contains a bank of resources for the course, including video clips, animations, worksheets, rotatable images of molecules and interactive progress tests.

Edexcel Physics for AS and A2

Authors: Graham George, Mike Benn and Tim Akrill

Student's Books

- Written specifically to cover the concept approach to the Edexcel Physics specifications. The resources are endorsed by Edexcel so you can be sure that they meet the requirements of the Edexcel Physics GCE specification.
- Provide clear worked examples throughout
- Present material that is accessible to students at the beginning of the course and helps them to develop essential skills for the examination
- Offer practice in mathematical calculations that students are likely to encounter throughout the course
- Provide emphasis on understanding the basic concepts and fundamental equations through worked examples

Personal Tutor Resources

Personal Tutor resources are available free online to guide students through difficult mathematical concepts. These audio-visual resources contain step-by-step instructions on how to tackle these requirements, which enable students to work at their own pace and encourage independent learning. They are also a useful revision tool.

Student Unit Guides

Student Unit Guides are ideal for revision. They explain the Unit requirements, summarise the content and provide practice questions and answers.

- An **introduction**, outlining the aims of the AS or A2 qualification and the skills required, and offering strategies for revision
- **Content guidance**, providing an examiner's overview of the module's key terms and concepts, and identifying opportunities to exhibit the skills required by the unit. This section shows students what they have to learn and how they might analyse and evaluate topics
- **Questions and answers**, with graded answers to questions which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner

Teacher Guides

- Planned lessons that leave you time to teach.
- Save you hours of preparation time
- Offer opportunities for skills development
- Help to introduce a more student-centred learning approach
- Enable students to work with minimal supervision
- Can be adapted in the event of staff absence

These photocopiable resource packs support your teaching with ready-prepared lessons on a range of topics. The lessons aim to help develop key skills using a variety of approaches ranging from exercises based on supported self-study and discussion, to more practical activities, developed from ideas tried and tested in the classroom.

Chemistry
